   - Server-side Rendering
3. **Tools & Technologies**
   - Git & GitHub
   - Vite, Node.js
   - Docker (basic)
   - API Integration
   - SEO Optimization
   - Automation scripting
4. **Soft Skills**
   - Problem Solving
   - Leadership
   - Client Communication
   - Team Collaboration
   - Teaching & Mentorship

PROJECT EXPERIENCE

▪ *Ajira Digital Club Management System (Full Stack)*

A system for managing club members, events, attendance, leadership roles, reports, and digital training sessions.

Built using PHP + MySQL

Includes admin dashboards, automated membership tracking, digital certificates, and analytics

Designed a clean, responsive UI and fully role-based access system

▪ *TechSafi Software Company Website*

Official website for TechSafi, showcasing services, departments, AI-powered solutions, and enterprise tools.

Built with React + Tailwind

Integrated advanced animations, micro-interactions, smart hero sections, and modern layouts

Optimized for marketing, branding, and client conversion

▪ **SnapAura AI App**

An AI-powered web application for generating digital assets, creative content, and visual enhancements.

Features include image generation, content creation, document automation

Backend automation with API-driven functions

Beautiful modern UI and smooth interactions

▪ *LaunchVerse – App Deployment Marketplace (Ongoing)*

A web platform where users deploy and showcase their web apps (Play Store for web apps).

Built with Supabase + modern frontend frameworks

Includes user dashboards, authentication, app uploads, analytics, and reviews

Clean architecture with cloud integration

▪ *Bursary Management System (BMS)*

End-to-end automation of bursary application, approval, vetting, and allocation.

Built on PHP, includes secure roles, reporting, and automated workflows.

▪ *Motorbike Leasing System (PHP)*

Customer registration/login, lease requests, admin approvals

Real-time bike status ("Idle"/"Busy")

Extra charges for extended hours

▪ *Library Management System(PHP)*

Manages books, issuance, returns, fines, members

Clean admin dashboard and reporting

▪ *"Memoria" Multi-Level Memory Game*

Built with JavaScript timers, animations, and increasing difficulty levels

▪ *Dynamic Sports System (PHP)*

Content management, dynamic layouts, and admin tools

▪ *Springs Ministries NGO Website*

Fully responsive website with donation content, gallery, and ministry tools

▪ *Result Management System – TVET Fair (World Skills)*

Ranked in national competitions

Handles student results, uploads, verification, analytics

▪ *AI Assistant System (Ongoing)*

Dashboard to automate Gmail, posting, planning, weather checks, and AI image generation

Built progressively using React frontend + backend APIs

WORK EXPERIENCE

Freelance Web Developer & Systems Designer (2022 – Present)

Build professional systems for NGOs, colleges, businesses, and startups

Frontend development using React, Tailwind, and JavaScript

Backend systems with PHP, Laravel, MySQL, and integrated APIs

Provide SEO, branding, UI/UX design

Build automation tools and intelligent dashboards

Mentor students in web development and full-stack engineering

Web Development Trainer – Ajira Digital Club / Full Stack Foundry (2025)

Instructed students in HTML, CSS, JavaScript, PHP, Git & GitHub

Led practical sessions building a full-stack system from scratch

ICT Intern – Mariakani Sub-County Hospital (Sept – Dec 2024)

Provided ICT support, data systems management, hardware/software troubleshooting

Assisted in network setup and digital documentation

EDUCATION

- **Diploma in ICT**

SEME Technical and Vocational College (2022 – 2025)

- **Certifications**

Android Development – Programming Hub

Advanced HTML – Programming Hub

Web Development (Frontend) – Programming Hub

- **Secondary Education**

Friends School Mbale – KCSE (C+)

- **Primary Education**

Our Lady of Grace Primary school – KCPE (362)

LANGUAGES

English

Kiswahili

INTERESTS

I.   AI and Automation Systems
II. Mobile & Web App Development
III. UI/UX
IV. Innovation & Digital Creativity
V.   Travel and Exploration
